ANSI-Z87.1+ & CSA Z94.3 Approved. Clear, crisp and distortion free visibility while meeting the requirement standards that help provide protection from projectiles and impact in general use applications. The rimless design is treated front and back with a clear, scratch-resistant coating for a much harder surface that is more resistant to scratching. Featuring fully adjustable temples that ratchet and extend in length and a soft nose pad which self-adjusts for a perfect fit. A foam kit is available that will transform the glasses to a dust free goggle.

Color: Clear Lens, Gray, I/O Mirror, Gradient, Anti-Reflective, Foam Kit

Size: 2" h x 5 3/4" w x 6 3/8" d

Imprint Area: 1/4" h x 5/8" w

### 3-Piece Ear Plug Set

This set includes 2 X-Emboss disposable ear plugs and 1 Flange Classic reusable ear plugs. The X-Emboss at the end of the plug reduces pressure at opening of ear canal for improved all-day comfort and easy removal. The Polyurethane foam with a unique cellular structure allows for slower expansion recovery time, easier fitting and improved acoustic seal. It has a tapered bullet shape for easier fitting and good for low noise levels (30dB). The Flange Classic is a proven plug design that delivers comfort and optimal attenuation with no rolling required and good for low noise levels (23dB). The Thermoplastic elastomer (TPE) plug with self-sealing flanges and discs can be reused multiple times, making them a cost-effective solution. Includes a non-resonating textile cord for comfort and easy storage. The cord can be removed for added safety. All packed in carry/storage case.

Color: Black

Size: 3" h x 1 1/2" w x 1 1/2" d

Imprint Area: 1" h x 1" w

Imprint Method: Pad Print (1 Color Only)

Optional Imprint Method: Digital Laminate Panel

Packaging: Black Case

**FL502****Intrinsically Safe Flashlight (CREE® XP-E)**

This flashlight is explosion proof and is safety approved for hazardous locations/situations. Run time is approximately 40 hours which makes it ideal for emergency, utility, mining and other heavy industrial applications and is also great to have at home. Approved by global safety agencies this flashlight is UL Class I division 1&2 Grp ABCD, Class II division 1&2 Grp EFG and Class III T4 Certified. Shatterproof from a 1 meter drop and waterproof for submersion up to 1 meter this intrinsically safe flashlight is made from ABS Plastic puts out 124 lumens of light. Includes three C Duracell batteries.

Output: 124 Lumens High, 78 Lumens Low

Color: Yellow

Size: 2 1/4" h x 2 1/4" x 9" d

# HardCap A1+™ Bump Caps

## HH11/HH12HV/HH13/HH14

Be protected in your workplace from minor bumps and scrapes to the head with our Bump Caps. Ideal to be worn in work spaces that have low head clearance or low hanging objects. Designed for all work environments that do not require ANSI-compliant head protection, such as automotive repair, food processing, maintenance departments and truck drivers. A sporty lightweight baseball cap design that has a machine washable outer cap and comes in three brim sizes. Inner high-density polyethylene protective liner offers 360 degree protection.

Safety Flashlights / Head protection

## HH15 - BUMP CAP - WINTER A1+

Cold weather bump cap version with fleece covering the ears and back of the neck. The fleece material can be folded back into the cap and worn as a standard bump cap.

HH15

### LOW - PROFILE DESIGN

An ultra-sleek and low profile design that is almost indistinguishable from a baseball cap.

### REFLECTIVE PIPING

Add extra visibility and safety in all working environments with subtle reflective piping.

### SWEATBAND

Includes a Terry cloth sweatband for added comfort and absorption.

### ALL ROUND PROTECTION

Protective HDPE liner is removable and the outer cap is washable.

### UNIQUE SIZE ADJUSTER

Unique angled adjuster slides on an elastic strip for a quick, secure fit.

### VENTILATION

Features two large mesh panels and extra holes in liner for ventilation.

# Evolution™ 6100 Full Brim

## Evolution 6100 series – HH17, HH17HV, HH17V, HH18, HH18HV, HH18V

- High-Density Polyethylene (HDPE) shell with a full brim providing additional protection against sun, glare, rain and falling debris
- Extended back brim helps protect neck and ears from the sun's UV rays, as well as a run-off for rain and snow... short front brim shades the face while allowing excellent visibility
- Brim includes finger grips on front and rear, as well as a textured underside to reduce reflection/glare
- 6-Point suspension system with polyester textile straps offers unrivaled comfort without compromising performance
- Unique "3D Adjustment" provides a precise fit using harness depth settings... unlike any other hard hat on the US market today
- HH17 OneTouch Slip Ratchet is simple to adjust and an improved alternative to the traditional pin-lock system
- HH18 Evolution Wheel Ratchet is easy to use and creates a firm comfortable fit
- Vented versions are available to reduce inside helmet temperatures... ANSI Class C
- Chamlon™ sweatband for maximum sweat absorption
- Universal slots to fit various accessories
- Packed ready-to-wear with no installation of the suspension required
- Meets ANSI/ISEA Z89.1-2009, Type I, Class E requirements

### WEBBING SPENSION

HDPE strap & webbing clips with Polyester webbing straps

### CHAMLON™ SWEATBAND

Egyptian cotton core with porous PU coating for maximum sweat absorption. PH neutral, dermatologically tested.

HH17

### SLIP RATCHET

EasyJust™ Slip Ratchet version (HH17) is so simple to fit that it can be adjusted with just one finger.

HH18

### WHEEL RATCHET

The Evolution Wheel Ratchet™ is the new easy to use wheel ratchet adjustment system to create a firm comfort fit with added security.

### SHELL

Egyptian cotton core with porous PU coating for maximum sweat absorption. PH neutral, dermatologically tested.

### FULL BRIM

The full brim provides additional protection to the neck and ears against sun, glare, rain, snow and falling debris

# Evolution™ 6100 Hard Hat

## The Perfect Blend of COMFORT and STRENGTH

The Evolution™ 6100 Hard Hats are the latest edition to the head protection line from JSP®. Using technology from the MK8 Evolution™ (the toughest industrial safety helmet in the world), the shell of the Evolution™ 6100 owes its good looks to its strength. Traditional styling has been enhanced with five raised channels running across the top of the helmet which not only modernizes the aesthetic look, but also strengthens the helmet. In testing, the Evolution™ 6100 has exceeded the ANSI Z89.1 Type I standard and proven to be far tougher than the competition.

### SUPREME COMFORT

A 6-point polyester textile harness system pre-installed on Evolution™ Deluxe offers unrivaled comfort without compromising performance.

### 3D PRECISION FITTING

Never before has such a precise fit been attainable on an industrial safety helmet, using the unique 3-position harness depth setting.

### TOUGH HDPE SHELL

In tests, the Evolution™ 6100 proved to be far tougher than the ANSI Z89.1 standard required, as well as the competition.

### VENTILATION OPTION

Side and rear ventilation for optimum air movement inside the shell, reducing the helmet temperatures by an average of 4-6° F.

### One Touch Fitting Adjustment

The OneTouch™ Slip Ratchet is so simple to fit that it can be adjusted with just one finger.

## Evolution 6100 series – HH03, HH04, HH05

- High-Density Polyethylene (HDPE) shell designed with five raised channels running across the top of the helmet for strength, and a longer back for extra protection
- 6-Point Suspension System offers unrivaled comfort without compromising performance
- Choice of harnesses... economical polyethylene or a wide polyester textile webbing
- Unique "3D Adjustment" provides a precise helmet fit using harness depth settings
- OneTouch™ Slip Ratchet is so simple to fit that it can be adjusted with just one finger
- Revolution™ Wheel Ratchet is easy to use and creates a firm comfortable fit
- Vented versions are available to reduce inside helmet temperatures... ANSI Class C
- Short brim versions are available for improved vision when looking up
- Brushed nylon backed foam (Evolution™) or Chamlon™ (Evolution™ Deluxe) sweatband
- Universal slots to fit various accessories
- Packed ready-to-wear with no assembly required
- Meets ANSI/ISEA Z89.1-2009 standard for Type I, Class E
- Meets ANSI requirement for Reverse Donning and Lower Temperature (Evolution™ Deluxe)

### Firmest Fit Available for a Safety Helmet

The deep nape strap enables the firmest retention of any helmet, keeping it firmly rooted on the head even when fully inverted.

Visit [starline.com](http://starline.com) to see available colors and pricing.

### Revolution™ Wheel Ratchet

New, easy to use wheel ratchet adjustment system creates a firm comfort fit with added security.

HH06

## HH06 - MK8 Evolution™

- Meets and Exceeds ANSI/ISEA Z89 1-2009 Standard for Type II, Class E
- Offers Side (Lateral) Impact Protection which reduces the force of impact resulting from a blow which may be received off center as well as to the top of the head
- Also offers Side Penetration Protection in addition to crown penetration
- Expanded Polystyrene (EPS) Impact Liner helps absorb the forces of impact
- High-Density Polyethylene (HDPE) Shell
- Deluxe Polyester Textile Strap Suspension with microfiber crown pad webbing
- Wheel Ratchet Adjustment allows user to easily adjust fit while wearing
- Universal Accessory Slots
- Comes with cinch carrying pouch
- Visit [starline.com](http://starline.com) to see available colors and pricing

### IMPACT PROTECTION

Side, front and rear impact protection from the shock absorbing EPS liner. Vented liner to increase comfort while maintaining high protection factor. Liner optimizes low angle side impact performance.

### COMFORT

Extremely comfortable polyester fabric webbing molds to the individual wearer's head. Lightweight EPS liner reduces weight while still offering maximum protection.

### OUTER SHELL

Ultra high strength outer shell. Ribbed upper section dissipates impact energy. All round protection down to 60° from vertical. Large imprint area on front and sides for logos.

### ADJUSTMENT

Intuitive thumb and forefinger press points for easy adjustment of the wheel ratchet. Offers diverse size ranges for true "One Size Fits All".

## JSP® HAS EVOLVED HEAD PROTECTION...

The MK8 Evolution™ meets the ANSI Z89.1-2009 standard for Type II impact protection. However, it is also the only industrial safety helmet in the world meeting and exceeding the new, tougher European standard EN14052... the biggest advance in industrial head protection in over 45 years.

High Impact... Side Impact... Priceless Protection. The high-density EPS liner and ultra comfortable harness ensure maximum protection in the highest risk environments, without compromising comfort. Ideal for:

Construction, Mining/Tunneling, Demolition, Oil & Gas Refinery, Energy Firms, Offshore Marine, Certain Emergency Services (like FEMA & USAR)

But most importantly, MK8 Evolution™ demands protection from SIDE IMPACTS and SIDE PENETRATION to the same level as ANSI Z89.1 Type I testing, with almost 20 times the coverage area.

### EN14052 TESTING

Requires each helmet to be hit twice. ANSI Type II testing only requires the test sample to pass one hit.

#### 1a: Penetration Test - Crown

Helmet is hit twice, once in the crown area with a 2.2 lb. chisel shaped striker from 8 feet.

#### 1b: Penetration Test - Side

The same weight is dropped from 6.5 feet onto the shell at any angle between 15° and 60° for Side Penetration performance.

#### 2a: Impact Test - Crown

Helmet is hit twice, once in an area within a 1.375" radius of the crown with an 11 lb. weight from just over 6.5 feet.

#### 2b: Impact Test - Side

The same weight is dropped from just over 3.25 feet onto the shell at any angle between 15° and 60° for Side Impact performance.

## HH02 - Comfort Plus Hard Hat 5151

- High-density polyethylene (HDPE) shell dissipates impact energy
- Shock-absorbing 6-point suspension with adjustable polyester textile crown straps
- Pivoting wheel ratchet adjustment easily fits over the nape of the neck for a secure fit
- Brushed nylon backed foam sweatband
- Universal slots to accept various accessories
- Packed ready-to-wear with no assembly required
- Complies with ANSI/ISEA Z89.1-2009 standard for Type I, Class G

-  White
-  Yellow
-  Green
-  Blue
-  Red
